

Analytical Physics, or Trinology A New Theory of Physical Science

Filesize: 4.44 MB

Reviews

Extensive guide! Its such a very good read. I really could comprehend almost everything out of this created e ebook. You will like how the writer write this ebook.

(Katherine Feil)

ANALYTICAL PHYSICS, OR TRINOLOGY A NEW THEORY OF PHYSICAL SCIENCE

General Books. Paperback. Book Condition: New. This item is printed on demand. Paperback. 22 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1852 Excerpt: . . . CHAPTER V. THE THREE PRIMARY ELEMENTS: METEOROLOGY. 151. Almost all the phenomena in nature are deducible from a final cause, --heat, cold, and water being the three primary elements, which, co-operating together like the changes in bellringing, produce the endless manifestations which everywhere meet the eye. 152. Thus water, with small mixtures of glutinous or carbonic substances, produces, on the application of heat, spirits and gases. Corn, or grains of wheat laid on a tablet of glass, covered with a layer of straw only, may be made to grow on the application of heat and water. This experiment, performed on a large scale for a number of years, would cause the produce, from its own decay yearly, to form soil, on which plants would grow. Nature abounds in soils formed after this sort. Fruitful soils will be found deposited on 88 FORMATION OF SOILS. the most unproductive sands and gravel, which could afford no greater nourishment to seeds than a surface of glass, --water and heat being the only sources whence nourishment could have been derived. A great many weeds and wild grasses will grow on sands, and ultimately produce soil. Many soils are produced in like manner. Coal is formed from the decay of timber, peat from the decay of heath, vegetable soil from the decay of leaves, grasses, and manures, and c. and c. 153. But of course, independent of both heat and water, vegetation is largely supplied from the gases of the...
